Dear Patient,

Your provider has requested a benefit check for the medication of Xtandi / Erleada / Zytiga. SUA will start the process by sending in an order to CVS Specialty Pharmacy. CVS Specialty Pharmacy will work with your insurance to determine your responsibility for this medication. These are expensive medications and your responsibility can be costly. The pharmacists at CVS Specialty Pharmacy are familiar with the cost of this medication and will work to help you obtain financial assistance if you are eligible. Depending on your type of insurance and financial income, you may qualify for assistance for your copay. They can also direct you to several patient foundations that are funded for patients with prostate cancer—if eligible, you may be able to receive funds for one year of medication. You may also qualify for assistance by the manufacturer of Xtandi / Erleada / Zytiga for free medication.

Once CVS Specialty Pharmacy determines your cost, they will contact you to determine how to proceed. If you do not hear from CVS Specialty within 1 week of today's appointment, please contact our Practice Manager, Aileen Catone, at 412-372-6330 x 112. She will work with you and CVS Specialty to ensure your medication is ordered and all financial options are investigated.
